# Ensure **Smooth Operations** in Your Day-to-Day

Streamline operations with quick & easy adjustments that don't impact your original plans. BusPlanner Dispatch helps you tackle everyday hurdles in the world of student transportation while giving you peace of mind by ensuring smooth operations.

> When drivers call out in the morning, we can turn to Dispatch and quickly see which buses or drivers are unavailable. This technology helps us **efficiently reassign routes** to ensure students get to and from school as quickly as possible.

> **Guilford County Schools, NC**

Let's assume that one of your drivers calls in sick. Here's how BusPlanner Dispatch can help:

- **Reallocate Routes:** Maximize efficiency by reassigning routes to drivers based on their schedules & real time locations using GPS data.

- **Minimize Disruptions:** Ensure that every child reaches school on time by strategically splitting routes between drivers to maximize coverage.

- **Generate Detailed Reports:** Provide drivers with reports of their newly assigned stops ahead of time to help them plan their day effectively.

- **Track Live Bus Locations:** Monitor your fleet in real-time & get the live location of all your buses to monitor which are on-time or running late.

Streamline operations at your district with BusPlanner Dispatch!
